

range introduction

Logic Plus wiring devices from MK Electric have been designed to perfectly complement modern interiors, offering an unobtrusive and sophisticated look totally in keeping with today's design. Technically, they exceed British Standard requirements with patented features that make these products the most advanced and safest available.

Logic Plus products are made from a high grade thermoset material which has an inherent antimicrobial property. In recent independent tests, the Logic Plus products were equal to, or exceeded, competitor 'Anti-Bac' products when tested for resistance to MRSA, E-Coli, Salmonella and Klebsiella Pneumoniae.

They are easy to install and available through our extensive distributor network.

The range is backed by MK's quality and reliability and provides the largest selection of wiring devices in any single range.

Echo™ is an innovative range of entirely wireless, batteryless and self powered switches, only available from MK Electric and in finishes to complement the Logic Plus range. Please see page 26 for details.

feature benefits

Total safety

3-pin operated 'child resistant shutter system', which is designed to inhibit access to the electricity supply, unless all 3 pins of a standard British 13 AMP plug are in position. Logic Plus products include an inherent antimicrobial property as a result of the high grade thermoset material used to manufacture

Unrivalled quality and reliability

Products are made from the very best materials and production processes. All products are 100% tested

Quick and easy to install

Features to ensure a quick and easy installation come as standard across the range, including in-line terminals, funnel entrances to terminals, backed out and captive screws and clear terminal markings

Outstanding range

Extensive selection of wiring devices providing a total solution

20 year guarantee

Gives total peace of mind to you and your customers
(10 year guarantee for electronic devices)

technical hotline +44 (0)1268 563720

white | wiring devices

**CONTOURED TO
BLEND INTO
THE WALL**

**3-PIN "CHILD RESISTANT
SHUTTER SYSTEM"**

Designed to inhibit access to the electricity supply, unless all 3 pins of a standard British 13 Amp plug are in position

DOUBLE POLE SWITCHING

Switches both live and neutral (neutral makes first, breaks last) means added safety for the user

**OPTIONAL NEON INDICATOR SHOWS
WHEN SWITCH IS ON**

3mm SWITCH CONTACT GAP

**HIGH GLOSS, HIGH QUALITY
THERMOSET MATERIAL**

Inherent antimicrobial properties, resists scratching, maintains appearance

TERMINAL MARKINGS

Clearly marked on all rear mouldings

TERMINAL SCREWS

Backed out and held captive within the terminal housing

IN-LINE TERMINALS

Allow wire to be cut stripped to the same length

FUNNEL ENTRANCE TO TERMINALS

Terminals are upwards facing to make installation easier

DUAL EARTH TERMINALS

Available for installations that require high integrity earthing

Comprehensive range of Part M compliant products including socket outlets with outboard rockers, wide rocker switches and graphite coloured frontplates

Combined TV, FM, DAB, satellite and telephone sockets save on installation time and space

Simple but effective screwless cord grip on connection units – securely holds the cable

Specification Notes

The 3 pin operated safety shutter makes Logic Plus sockets the safest available

Many sockets are fitted with two earth terminals to provide high integrity earthing

Terminals are grouped in-line with terminal screws backed out ready for easy wiring. Clear marking on dark background makes the terminals easily identifiable

Earth pin operated shutter.

These a.c. and pulsating d.c. fault current sensitive products have up to 15mm thick
frontplates and are suitable for boxes with 30mm min. depth and supply voltages
of 240V 50Hz.

A 25mm deep box (862 ZIC) can be used but conduit entry is restricted.

Refer to Sentrysocket section, page 271, for more information on active and passive
control circuits.

DIMENSIONS: 86 x 146mm

FIXING CENTRES: 120.6mm

BS 7288: 1990

All units are a.c. and pulsating d.c. fault current sensitive devices.

Maximum total load 13 amps

MOUNTING BOXES:

This design incorporates a double wound isolating transformer rated 20VA at 230 or 115 volts it meets BS EN 61558 making it safe for use in bathrooms. Insertion of a shaver plug automatically switches on by energising the primary side of the isolating transformer – removal automatically switches off. The transformer is protected against overload by an automatic solid state overload device with automatic resetting.

DIMENSIONS: 146 x 86mm

FIXING CENTRES: 120.6mm

BS EN 61558-2-5: 1998

Features and Benefits

A screwless cord grip automatically clamps and securely holds the cable in connection units with base and front flex outlets

Switched units are double pole with neutral pole contacts 'making' before and 'breaking' after live contacts. Rockers with built-in indicators are available

When servicing or repairing appliances, fuse carriers remain attached to the frontplate when opened and can be padlocked for safety

An optional tamperproof screw on fuse carriers is particularly useful for appliances in public areas

In-line terminals, backed out captive terminal screws and clear marking make wiring up easy

Wide rocker plateswitches are not only a stylish alternative to standard plateswitches, but with the fixing screws hidden, the rocker cap acts as an additional barrier to prevent unwanted tampering in public areas. They are also very practical and easy to use for the young and elderly alike.

MOUNTING BOXES:
suitable for flush boxes to
BS 4662: 1970 and surface boxes
to BS 5733: 1995

Refer to appropriate module for
minimum box depth.

FIXING CENTRES:
1 gang: 60.3mm
2 gang: 120.6mm

BS 5733: 1995 where appropriate

Note: No grid required, modules
just clip into place

Suitable for both RJ11 and
RJ12 jacks.

RJ11: 4 wire
RJ12: 6 wire

MOUNTING BOXES:
Minimum box depth 25mm
FCC68

Enhanced Cat 6 performance.

Suitable for both 568A and 568B
wiring schemes.

MOUNTING BOXES:
Minimum Box Depth 35mm

TIA/EIA TSB40A: Cat 6
TIA/EIA 568-A: Cat 6
ISO/IEC11801: Cat 6

Enhanced Cat 5 performance.

Suitable for both 568A and 568B
wiring schemes.

MOUNTING BOXES:
Minimum box depth 25mm

TIA/EIA TSB40A: Cat5e
TIA/EIA 568-A: Cat5e
ISO/IEC11801: Cat5e

MOUNTING BOXES:
Minimum box depth 16mm
BS 5733: 1995 where appropriate
